B4P Achieves Milestone in Brazil!

“The Lord has done great miracles for them” Ps 126:2

Annette: Blonde with brown eyes, she stood before me, but didn't look at me. After brain surgery the woman was blind in both eyes. Her eyes wandered in all directions, they looked dead. After prayer, she looked directly at me, a charming smile brightening her face. She told my prayer partner that she could see shapes. Her eyes now looked alive through the resurrection power of Jesus.

A tall broad shouldered man held his six year old daughter by the hand as he approached for prayer. He said

he had two brain tumors and the doctor told him he would need two more surgeries. The vision in his left eye was compromised and he was told the next surgery would affect the vision in his right eye. He began to sob. I checked his vision using the words in my Bible. After prayer, his vision was fully restored by Jesus Christ.

She was deaf in her right ear. After prayer she looked stunned. She could hear! Her eyes lit up, she hugged me, and walked away thanking Jesus.

Five men broke into her home and kidnapped the 18 year old girl. Since her return, she told me she was gripped by fear and unable to leave her house. The B4P team ministered in her town the night before. She heard about what God had done for some of the 400 people who had attended. The fact that she had left her house and traveled to our healing service was already evidence of the mighty healing power of God.

The eight year old boy had asthma, his breathing was labored. After

prayer he was taking deep breaths.

Thirty years old, she had severe acid reflux that resulted in throat pain and affected her voice. After prayer, I asked her to test her voice. In Portuguese she asked, "What should I say?" Her eyes opened wide and she began to cry as she realized her throat was healed through Jesus Christ.

He was over six foot tall, in his late twenties, and a teacher. He had an undiagnosed problem with his voice. I saw the fear in his eyes as he said in Portuguese, "I could lose my job." We prayed, tested, prayed, tested, prayed, and tested. The third time his voice was totally restored to normal through Jesus Christ.

About fourteen years of age, she had a lump about three inches long on her leg. We prayed for it to "soften and shrink" and that is what happened through Jesus!

She said B4P had prayer for her three years ago. She had three nodules in her throat. They were all healed.

He said he had a stroke and was debilitated. B4P prayed for him three years ago and he was healed through Jesus Christ.

Nina: I was thinking about all the people that were healed! The Lord is

so awesome, faithful, and true to His word. God put it on my heart to pray a simple prayer for everyone I prayed with: "Oh Lord we pray that Your precious one would be able to hear Your voice, feel Your presence, and come into a deeper relationship with You. Let them know Lord how much You love them and how special they are to You."

I prayed for a young woman who was fighting depression and tried to commit suicide 4 times by cutting her wrists. She had a very flat affect and when we prayed her eyes rolled back in her head. After praying the above prayer and praying for God to deliver her from the spirits of depression and suicide, she was transformed! She was smiling and put her hands on her heart. Jefferson, my translator, said she felt changed and knew God was with her! Thank you Jesus!!!

I prayed for a young girl who had lazy eyes. As I watched I saw her pupils wander with limited control. We prayed for strengthening of the eye muscles, for eyes to focus correctly. After the prayer her eyes were tracking normally, focusing correctly and she said she could see much better! Thank you Jesus!

Ed: It was the first healing ministry of the mission. One of our B4P team members, Manuel, came for prayer.

He told me that he had been bitten by a mosquito carrying the Zika virus and was suffering with joint pain throughout his body. He complained especially of pain in the left shoulder. He could not lift it over his head. And he could not close his left hand in a fist.

I prayed for the pain in his shoulder and hand to leave in the name of Jesus. Then I asked him to try to lift his arm over his head. He tried and got half way. I prayed again and then his arm went right up. He tried his hand and closed his fist. "No pain," he said and gave me thumbs up.

An emergency call for prayer came while we were in transit to our next ministry stop. Barros (Brazilian friend of 10 years) was in a motorcycle accident but there were no details. The Team began praying immediately.

We soon reached our destination, unloaded our luggage, and settled in. Later, at the ministry, Barros appeared holding his arm as if it were in a sling. I could see the bruises and cuts. "I have a level 8 (out of 10) pain and can't straighten my arm." We prayed and in a few moments he was now moving his arm and said the pain was a 4. Again we prayed, and the pain reduced to a 2.

Upon entering the stadium to begin ministry I saw Barros with a micro-

phone in one hand waving his bruised arm over his head. The following day I saw him playing drums! We give God glory for His healing power.

Kevin: In *Umirim* a woman suffered breathing problems. She was healed and proceeded to usher up her 30 year old brother. When he was six both his ear drums exploded and he'd been deaf and mute ever since. Praying with my hands over his ears I periodically snapped my fingers as a test. I snapped, his downcast eyes shot up locking with my own. I snapped again. A smile spanned from ear to hearing ear! Without hesitation he went for the microphone to give his testimony.

I had my hand on another woman's shoulder and as she explained her problem to the interpreter, pointing to various parts of her body, she began laughing. I asked the interpreter why. "As she's describing her pain she realizes she doesn't have it anymore!" God healed her while she was on line!

A young woman was suicidal. I asked if she'd ever had the opportunity to surrender her life to Jesus. "I don't believe in God." After a brief conversation she accepted Jesus as her Lord and Savior. She fell out under the power of the Holy Spirit and

when she got up she was transformed and delivered from all oppression.

Our guest house hostess, Angela (2nd from left in the photo above), asked for prayer for painful fibromyalgia symptoms when she heard about all the miracles at church the night prior. She was completely healed!

In *Torrões* a young lady complained of a nodule in her breast. She could easily feel it with her hand. As I commanded it to dematerialize in Jesus' name she felt it disappear!

In *Sabia Guaba* we visited a woman whose lower leg was badly injured from a car accident several months prior. Hardware was visible, protruding from under her flesh. She was in pain. I asked her if she experienced any change while I prayed. "I felt a wind blow across my leg and all the

pain is gone." She recognized it as the Holy Spirit.

In *Itapipoca* depression was this young adult's debilitating issue. Inquiring whether there was anyone she needed to forgive (the Lord has taught us this can be the root of depression) the question was met with silence. Head lowered and arms crossed in front of her, eventually she responded, "Myself." When she was ultimately able to do just that her chains hit the ground. She was delivered from depression and filled with holy joy.

Over the course of the 10th Anniversary Brazil mission we traveled most days to a new location for ministry. Our team of four New Yorkers, one Australian, and some Brazilian B4P friends prayed for 3500-4000 people. Nearly every one was healed. Common ailments included full body joint pain (evidently from the Zika virus), gastritis, acid reflux, vertigo, migraine, depression/anxiety/emotional disorders, eye and ear problems. In other words, the gamut of illnesses, and none was too hard for the Lord to heal. Let's praise Him!

Louise: This teenage girl (photo top right) and her family were on their way to the church we were ministering in that night. On the way she became seriously ill and they rushed

her to the hospital. When I prayed she was unconscious and on a drip. Then I moved on to pray for another patient. Her mother called me back over: she was conscious and smiling, completely healed and the family said they would go to the healing rally in the church that night.

The girl in the floral top (photo above right) was healed of Zika, a mosquito borne virus. She had joint pain in her wrists and feet for one year. There were quite a few people with this condition. Jesus totally healed her. So many times I pressed in for people till we got 100% healing, because He is a 100% God!

This couple is getting married on September 29th. Her leg got healed

of numbness. His bladder got healed. He'd been in pain for a year since surgery. He tested it out by relieving himself in the men's room. He came back with a big no-more-pain smile. Don't be shy to ask for healing for those "embarrassing things." I'm glad this beautiful couple didn't, and I pray for a blessed life throughout their long and happy marriage.

Where it all began, at the Corpo Mystico Community in Fortaleza with beloved leader Francisca Maria. A photo collage preserving 10 years and 5 missions is on the left wall. Our lives are eternally intertwined by our Lord and Savior Jesus Christ. This mission reunited established partners and forged new alliances as we visited territory both familiar and unknown.

Love and thanks to all who sacrificed for this milestone mission, especially Fernando and Fernanda.
